## Recycling Plan

We have implemented a comprehensive recycling program to divert as much material as possible out of the trash. **There is a recycling Zone, in the Parker Street lot, next to the fence.** We need your cooperation to implement the recycling plan.

- (1) **Paper Newsprint & Cardboard on Vernon Drive**  
The Green Paper/Newspaper and Cardboard **Recycling Bin** is next to the Garbage bin..  
- Remember to **flatten** the cardboard.
- (2) **Glass Metal Plastic**  
Glass Metal and Plastic goes in the blue “toter” bins next to the green cardboard bin.  
Sheet Glass is garbage.
- (3) **Wood Recycling:**  
We have a wood recycling bin on Vernon Drive that is labelled “Organics” If you have small amounts of **flattened** wood, put it next to the bin (as it is locked) and a key holder will throw it in the bin.
- (4) **Compost:**  
Put your compost in a hallway green bin. If there is lots, take it to the recycling zone and put it in the bin designated for compost.
- (5) **Batteries:**  
Regular AAA, AA, C, D, etc. batteries can be recycled in the battery bin in the recycling zone (loading bay and main floor hallway).
- (6) **Electronics, household machines, batteries, bulbs, paints and solvents recycling:**  
You are responsible for taking any electronics recycling to electronics recycling centre ([www.encorp.com](http://www.encorp.com)). The closest one to us is Bottle (and Electronics) recycling depot 960 Evans Avenue (North of Home depot behind the box company).
- (7) **Gypsum/Drywall:** You need to take this to the North Vancouver Transfer station (it is the closest drop off spot).
- (8) **Clay/Plaster:**  
Include it with your regular garbage.  
Do NOT put clay down the sink! Use a “gunk bucket”
- (9) **Giving away or selling “stuff”:**  
Post your stuff to get give away or sell on the Mergatroid Group Facebook page The Mergatroid.
- (10) **Furniture:**  
If you have furniture to get rid of, leaving it somewhere is not “on.” You need to take it to the dump or dismantle it and throw it away.
